Rodney L. Lusk
LEE DISTRICT SUPERVISOR

Mr. Eric Kerby
President
Vantage Homes Association

November 30th, 2021

Mr. Kerby,

It was a pleasure to meet you and spend time with Vantage residents during your Vantage Homes Association meeting last month. I appreciated the thoughtful questions and concerns that the community shared. Thriving communities are established and maintained in large part, by the commitment and consistency of residents who are dedicated to the success of their neighborhoods.

Please see the attached follow up information on questions/concerns that were expressed during the meeting. If there are further questions, please don't hesitate to reach out to my office.

I would welcome the opportunity to participate in another Vantage HOA meeting in the future. You may contact Deborah Claire at: Deborah.Claire@farifaxcounty.gov or 703-971-6262 to help with scheduling and/or if you have any questions.

Thank you for including me in your annual meeting. I look forward to seeing you all again soon.

Sincerely,

Rodney L. Lusk
Lee District Supervisor

Vantage Homes Association follow up:

1. Telegraph Road striping:

   My understanding is the striping on Telegraph Road is complete or almost complete. The striping is done by the Virginia Department of Transportation who owns and operates the roads. The Supervisor's office was in touch several times to the Project Manager from VDOT to express the concerns that we had been hearing about safety and we urged them to complete it as soon as possible.

2. Inspecting / clearing the drainage culvert in the neighborhood.
   Response from Stormwater Management 11/30/2021

   The Vantage Court concrete channel (work order #1976940) is definitely on the radar. Fairfax County Stormwater Management prioritizes all work orders; This work has been assigned as a priority 3. Priority 3 work has up to 1 year to complete, however most work orders are completed sooner. At the moment, the area supervisor and myself need to find a good access point to bring equipment and dewater silt and debris. In the next couple of days we will take a look at the channel. Please be patient; We are preparing for winter operations.

3. Assistance with having the bushes/vines on property behind backyard fences removed. The vegetation is causing the fences to break and fall. Specifically in this neighborhood on South Kings Highway.

- VDOT owns this property and my office has requested that VDOT cut back the vegetation.
-

4. Streetlight outages. What is the process to have these fixed:
   There is a streetlight outage reporter at:
   https://www.fairfaxcounty.gov/publicworks/capital-projects/report-streetlight-outage.
- You can click the dot that corresponds to the light, click the hyperlink that says "Click here to report a problem with this street light". It will take you to a page where you enter in your name and email. And then you hit Submit Report.
